

Mohit Uniyal

Full Stack Developer

Dehradun, India; m7uniyal@gmail.com; +91 7835816795

Professional summary

Full Stack Developer with 8 years of experience, including 5 years in MEAN stack (MongoDB, Express.js, Angular, Node.js) and 3 years in MSBI (Microsoft Business Intelligence). Skilled in building scalable web applications, developing RESTful APIs, browser extensions, and integrating third-party APIs. Experienced in data visualization, automation, and performance optimization. Strong in problem-solving, team mentoring, and client communication. Currently expanding expertise in React.js while thriving in agile environments.

Skills and experience

Frontend	Backend	Database	Other
HTML5/CSS3 – 5 years JavaScript – 5 years Angular – 5 years React – 1 month	Node.js – 4 years Express.js – 4 years	MS-SQL – 3 years My-SQL - 2 years MongoDB – 3 years	Git – 6 years SSIS - 3 years Crystal Report - 1 year Power BI - 1 year

Projects

- **Rezme Web Application (MEAN Stack)** – Developed a web application that manages a white-label system for the Join Cherry Chrome extension, enabling seamless customization and integration for various clients.
- **Join Cherry Web Application (MEAN Stack)** – Built a web and Chrome extension-based platform that allows users to search for hotel and flight deals while displaying relevant browser extension data within a user-friendly dashboard
- **Join Cherry Browser Extension (HTML, CSS, JavaScript)** – Designed and developed a browser extension that integrates with various OTA platforms (e.g., Booking.com, Expedia) to provide users with exclusive discounts on hotels, attractions, and flights.
- **HyperWallet: Financial/Loyalty Data Mart (MSBI)** – Contributed to the development of a market analytics project where client data was processed within a data mart, generating insightful reports for loyalty analytics and enhancing customer retention strategies
- **Synthesis (T-SQL, Crystal Reports)** – Contributed to the development of a comprehensive order-to-cash management system tailored for the oil and gas industry, streamlining financial transactions and operational workflows.

Work History

Full Stack Developer

Frooty Studios Pvt. Ltd. | 2019 – Present (5 years)

- Developed a white-labeling system to automate Chrome extension customization for clients.
- Managed daily communication with UK-based clients for project coordination.
- Led and mentored junior developers, ensuring best practices.
- Built Angular-based applications and RESTful APIs using Node.js & Express.js.
- Designed and optimized MongoDB/Mongoose databases for scalable solutions.
- Created API and project documentation using Postman.
- Used Git and branching strategies for seamless collaboration.
- Developed browser extensions for Chrome, Mozilla, and Edge using JavaScript, jQuery, and Bootstrap.
- Managed and automated extension store deployments via an integrated admin system.
- Researched and integrated third-party APIs (ZipTax, Beehiiv, Klaviyo, IATA Geo, AWS S3, SendGrid, Google APIs).

BI Engineer

Cyber Group Inc. | 2018 – 2019 (1 year)

- Developed and optimized QlikView reports for data visualization.
- Debugged and implemented MSBI ETL packages for efficient data processing.
- Collaborated with clients to manage project tasks and deliverables.
- Mentored new trainees in MSBI technologies, ensuring smooth onboarding.

Jr. System Analyst

Contata Solutions Pvt. Ltd. | 2016 – 2018 (2 years 6 months)

- Developed and managed ETL packages for data processing.
- Optimized T-SQL stored procedures for improved performance.
- Designed Power BI reports for data visualization.
- Created and scheduled SQL Agent jobs for automated ETL execution.
- Translated client mockups into Crystal Reports using stored procedures.
